1 1/2 inch- \$41.00	10inch - \$ 986.00
2 inch- \$66.00	12 inch - \$1314.00

Customers who are provided service under Mg-1, Ug-1, or Mgt-1, shall be subject to the charges in this schedule according to the size of their primary meter, except that irrigation customers under Schedule Mg-1 are subject to these charges only if they have a single meter installed on their service lateral.

Upf - 1 Private Fire Protection Service-Unmetered

This service shall consist of permanent or continuous unmetered connections to the main for the purpose of supplying water to private fire protection systems such as automatic sprinkler systems, standpipes, and private hydrants. This service shall also include reasonable quantities of water used for testing check valves and other backflow prevention devices.

Monthly Private Fire Protection Service Demand Charges:

2 inch - \$ 8.00	8 inch - \$ 81.00	16 inch- \$245.00
3 inch - \$ 15.00	10 inch - \$122.00	
4 inch - \$ 26.00	12 inch - \$163.00	
6 inch - \$ 52.00	14 inch- \$204.00	

NSM-1- Non-Standard Meter Service

The utility shall assess a charge of \$15.50 per month to a customer who is provided service under Schedule Mg-1 and who requests a non-standard meter. The utility may assess only one NSM charge for customers with both water and power services. If a customer establishes service at a new location on which a standard meter is installed, and the customer requests non-standard meter service, the utility shall assess the customer a one-time charge, based on actual utility costs, for the installation of a non-standard meter. If a customer requests initial service at a location where non-standard meter is installed, the utility may not assess a charge for installing a standard meter. The utility may not charge an existing customer who chooses to convert from a non-standard meter to a standard meter.

Sq-1- Seasonal Service

Seasonal customers are general service customers who voluntarily request disconnection of water service and who resume service at the same location within 12 months of the disconnection, unless service has been provided to another customer at that location in the intervening period. The utility shall bill seasonal customers the applicable service charges under Schedule Mg-1 year-round, including the period of temporary disconnection. Upon reconnection, the utility shall apply a charge under schedule R-1 and require payment of any unpaid charges under this schedule.

R-1- Reconnection Charges

The utility shall assess a charge to reconnect a customer, which includes reinstalling a meter and turning on the valve at the curb stop, if necessary. A utility may not assess a charge for disconnecting a customer.

During normal business hours:	\$40.00
After normal business hours:	\$80.00
